

2024 American Community Survey 1-Year Estimates

Pre-Release Webinar

September 4, 2025

Webinar Slides

www.census.gov/newsroom/press-kits/2025/acs-1-year-estimates.html

This webinar is being recorded. The recording will be available after the webinar.

The American Community Survey

Before We Start

- Press kit and slides are available at www.census.gov/newsroom/press-kits/2025/acs-1-year-estimates.html
- Webinar recording will be posted a few days after the webinar
- If you are in need of closed captioning, click on the “cc” button in the lower left corner of WebEx or click the three dots on the right and select "captions"
- Use the Q&A feature in the lower right corner of WebEx to submit a question to our subject matter experts during the webinar

- **2024 ACS 1-Year Release**
- ACS Basics
- Updates for 2024 ACS 1-Year Release
- Resources for Learning More
- Upcoming ACS Data Releases
- Q&A

The American Community Survey

2024 ACS 1-Year Release Schedule

MEDIA EMBARGO: Tuesday, September 9, 2025

- Embargo at 10:00 a.m. ET, includes 2024 ACS 1-year estimates:
 - 1-year data products
 - Press kit: census.gov/newsroom/press-kits/2025/acs-1-year-estimates.html with news release and America Counts stories

PUBLIC RELEASE: Thursday, September 11, 2025

- Embargo lifted at 12:01 a.m. ET, includes 2024 ACS 1-year estimates:
 - 1-year news release and press kit
 - Media can release their stories
- Data and related products will be available to the public Thursday, September 11, by 10:00 a.m. ET.

The American Community Survey

ACS vs. CPS

- 2024 income, poverty, and health insurance estimates from the Current Population Survey Annual Social and Economic Supplement (CPS ASEC) will be released September 9
- Estimates from CPS ASEC and ACS differ for a number of reasons, but trends over time tend to be similar across the surveys
- Recommendations:
 - National estimates -> CPS ASEC
 - Estimates below national level -> ACS

The American Community Survey

- Q&A

The American Community Survey

The Foundation

- The American Community Survey (ACS) is the premier source of detailed information about the nation's people and housing
- Surveys **3.5 million** addresses and about **150,000** Group Quarters (GQ) residents to produce annual social, economic, housing, and demographic estimates for communities throughout the 50 states, DC, and Puerto Rico
- Covers **40+ topics** — Collects detailed information previously collected by the decennial census each decade
- Helps inform how federal funds are distributed each year; supports over **300** evidence-based federal government uses
- Data released the year after collection as 1-year and 5-year estimates
- Officially started in 2005 – ACS is celebrating its 20th anniversary this year!

The image displays two screenshots related to the American Community Survey. The top screenshot shows the 'Welcome! Start here to respond:' page on the 'United States Census Bureau' website. It includes a login section for 'User ID' and 'PIN', a 'Log in' button, and a 'Can't find the User ID?' section with instructions on how to find the 15-digit code. The bottom screenshot shows the 'Start Here' page of the survey form, which provides instructions on how to respond (online or by mail), lists who is required to respond, and includes a section for 'How many people, including yourself, live or stay at this address?' with checkboxes for various household members.

The American Community Survey

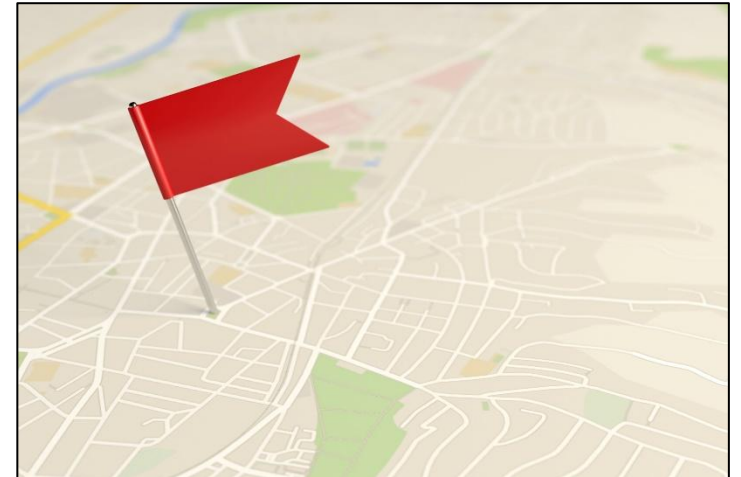

Content Overview

POPULATION			HOUSING
Social	Economic	Demographic	
• Ancestry • Citizenship Status • Citizen Voting-Age Population • Disability Status • Educational Attainment • Fertility • Grandparents as Caregivers • Language Spoken at Home • Marital History and Status • Migration/Residence 1 Year Ago • Place of Birth • School Enrollment • Undergraduate Field of Degree • Veterans Status; Period of Military Service • Year of Entry	• Class of Worker • Commuting and Place of Work • Employment Status • Food Stamps (SNAP) • Health Insurance Coverage • Income and Earnings • Industry and Occupation • Poverty Status • Weeks Worked Last Year	• Age • Group Quarters Population • Hispanic or Latino Origin • Race • Relationship to Householder • Sex • Total Population	• Bedrooms • Computer & Internet Use • Costs (Mortgage, Rent, Taxes, Insurance) • House Heating Fuel • Kitchen/Plumbing Facilities • Occupancy/Vacancy Status • Occupants per Room • Rooms • Telephone Service Available • Tenure (Owner/Renter) • Units in Structure • Value of Home • Vehicles Available • Year Householder Moved Into Unit • Year Structure Built

The American Community Survey

1-Year Geography

- More than 7,400 geographic areas
- Geographic areas of 65K+ total population including
 - Nation
 - All States, DC, and Puerto Rico
 - All Metropolitan Statistical Areas
 - All Congressional Districts (119th Congress)
 - Other geographic areas with a population of 65,000 or more

The American Community Survey

Outline

- 2024 ACS 1-Year Release
- ACS Basics
- **Updates for 2024 ACS 1-Year Release**
- Resources for Learning More
- Upcoming ACS Data Releases
- Q&A

The American Community Survey

ACS Geography Changes

- Boundary changes can occur due to updates to tribal geography, annexation, legislative redistricting, or by other means
- Changes for 2024 ACS Release
 - Release of 119th Congressional Districts

The American Community Survey

Geography Boundaries by Year

Legal Areas

Legally defined geographic areas used in the ACS are updated on an annual basis from a variety of programs, including: the [Boundary and Annexation Survey \(BAS\)](#), the [Redistricting Data Program](#) and the [School District Review Program](#).

Summary Level	Geographic Area	Vintage of Geographic Area for 2024 ACS Estimate Year
040	State and State Equivalent	January 1, 2024
050	County or equivalent (Alaska boroughs, Louisiana parishes, Puerto Rico municipios, independent cities)	January 1, 2024
County Subdivision		
067	Township, Minor Civil Division (MCD)/Barrio and Barrio-Pueblo	January 1, 2024
Place		
160	Incorporated Place	January 1, 2024
American Indian/Alaska Native/Hawaiian Home Land		
230	Alaska Native Regional Corporations (ANRCs)	January 1, 2024

Statistical Areas

For **statistical areas**, boundary changes are mostly associated with updates from each decennial census. Statistical areas are designed to have stable boundaries over time.

Summary Level	Geographic Area	Vintage of Geographic Area for 2024 ACS Estimate Year
050	County Equivalent (Census Areas in Alaska)	January 1, 2024
County Subdivision		
060	Census County Division (CCD)	January 1, 2024
Place		
160	Census Designated Place (CDP)/Zona Urbana and Comunidad	January 1, 2024
American Indian/Alaska Native/Hawaiian Home Land		
250/252	Tribal Designated Statistical Area (TDSA)	2020 Census
250/252	State Designated Tribal Statistical Area (SDTSA)	2020 Census

The American Community Survey

Population Controls and the ACS

- ACS data are controlled so that the number of housing units and people in certain categories are consistent with the Census Bureau's official estimates from the Population Estimates Program (PEP).
- In 2024, the PEP changed its methodology to better estimate net international migration, which is one of the components used to create population estimates along with births, deaths, and domestic migration.
- As a result, there was a cumulative increase of about 5 million people for the 2024 PEP estimate of the total population.

The American Community Survey

Comparing ACS Estimates Over Time

Factors that may contribute to changes in ACS estimates include:

- The sample.
- Changes in the population.
- Change in population controls.
- Nonresponse bias.
- Weighting.

The American Community Survey

Comparison Guidance

Do	Do Not
Use ACS for population characteristics (i.e., percents, means, medians, rates)	Use ACS for population totals (instead use decennial census or the Population Estimates Program)
Compare similar period lengths (i.e., 1-year to 1-year and 5-year to 5-year)	Compare estimates from different period lengths (i.e., 1-year to 5-year)
Compare across geographies and population subgroups using 2024 ACS	Expect ACS estimates to match decennial census counts or estimates from other surveys
Conduct statistical testing when making comparisons between estimates	Look at estimates alone to decide if they are higher or lower than one another

The American Community Survey

Statistical Testing Tool

Algebraically, the significance test can be expressed as follows:

$$\text{If } \left| \frac{\hat{X}_1 - \hat{X}_2}{\sqrt{SE_1^2 + SE_2^2}} \right| > Z_{CL}, \text{ then the difference}$$

between estimates $\hat{X}_1$ and $\hat{X}_2$ is statistically significant at the specified confidence level, CL

where $\hat{X}_i$ is estimate i ($i=1,2$)

SE_i is the SE for the estimate i ($i=1,2$)

Z_{CL} is the critical value for the desired confidence level (=1.645 for 90 percent, 1.960 for 95 percent, 2.576 for 99 percent).

Which Data Table or Tool Should I Use?

Statistical Testing Tool

Comparing American Community Survey (ACS) estimates involves more than determining which statistic is higher or lower. Users should also conduct statistical testing to make sure differences are statistically significant and are unlikely to have occurred by chance. This testing takes into account the margin of error (MOE) associated with survey estimates, which are based on responses from a sample of the full population.

Looking for an easy way to conduct statistical testing? Try the Census Bureau's [Statistical Testing Tool](#). Simply copy or download ACS estimates and their MOEs into the spreadsheet to get instant results of statistical tests.

Statistical Testing Tool
[2.6 MB]

Tool Features:

- Compares up to 3,230 pairs of estimates at once
- Compares multiple estimates simultaneously (up to 150 estimates)
- Displays statistical testing results ("Yes", "No") automatically
- Handles special formatting and characters, such as the '±' in front of the MOE, without additional editing by the data user
- Uses the Census Bureau's standard 90% confidence level, but can also process statistical testing at 95% or 99% confidence levels
- May be used to conduct statistical testing for other Census Bureau surveys

American Community Survey (ACS)

The [American Community Survey](#) (ACS) is the premier source of detailed information about the nation's people and housing. As an ongoing survey conducted by the U.S. Census Bureau since 2005, the ACS collects detailed social, economic, housing, and demographic information from a sample of households across the 50 states, the District of Columbia, and Puerto Rico.

The ACS provides up-to-date information annually, which helps local officials, community leaders, and businesses make informed decisions.

Covering more than 40 topics—including education, employment, income, housing, and transportation—the ACS provides crucial insights into the changing needs and conditions of communities. Its data are used for countless reasons, such as to plan roads, schools, and emergency services, and to guide the distribution of government funding.

American Community Survey Resources for Media

Detailed social, economic, housing, and demographic data from the U.S. Census Bureau's American Community Survey (ACS) can strengthen and localize many news and feature stories.

Throughout the year ACS collects new data from randomly-selected addresses in the United States and Puerto Rico. Using ACS data, you can:

- Find statistics to support specific points
- Sift through data to see patterns
- Spot economic and demographic trends

ACS data are produced for geographic areas ranging from neighborhoods to congressional districts to the entire nation.

ACS Data Topics for Media

The ACS produces population and housing data on over [40 different topics](#), many of which are regularly used for Congressional planning and funding projects. Examples of these subjects include:

News Releases

Embargoed Releases

The Public Information Office

Embargo Policy

- Access limited to accredited media who give their chief attention to the gathering and reporting of news.
- Embargoed news releases and data files may not be released to the public by any means before the specified date and time of release.
- Embargo access is granted on an ***individual basis only***. Embargoed data cannot be shared or discussed with colleagues or associates that have not been approved by the Census Bureau's Public Information Office.
- Media representatives are required to register using an email address associated with a media outlet. Group or generic email addresses will not be accepted.
- To sign up
<https://www.census.gov/newsroom/embargo>

Register for Newsroom Account

Embargo Policy

Access to the U.S. Census Bureau's embargo site is limited to accredited media who give their chief attention to the gathering and reporting of news. Applicants must be employed or represent news organizations that regularly publish or broadcast a substantial volume of news material for public consumption. Embargo access is granted on an individual basis only. Embargoed data cannot be shared or discussed with colleagues or associates that have not been approved by the Public Information Office. See "Guidelines for Embargo Access to Census Bureau's Media Embargo" for more information on embargo access requirements.

Embargoed news releases and data files may not be released to the public by any means (including print, broadcast, internet, podcast, blogs, or in any other form) before the specified date and time of release. Failure to adhere to this embargo policy will result in the removal of embargo privileges of the reporter and/or media outlet as follows:

1. First breach: Suspension of embargo privileges for six months.
2. Subsequent breach: Suspension of embargo privileges for one year. Reinstatement must be requested in writing.

Wire and distribution services are prohibited from distributing embargoed news releases and data files to subscribers before the public release date and time.

The Census Bureau, through its Public Information Office, reserves the right to deny access to embargoed information to any entity that abuses embargo privileges.

If an embargo is broken, the Census Bureau will immediately release the data to the public and a notification will be sent alerting data users that the information is now available to the public.

Media representatives are responsible for re-registering if they leave or change organizations. Failure to do so will result in immediate loss of embargo privileges.

The Assistant Director for Communications or his/her designee has final approval on all matters pertaining to embargo access.

Complete the following form to start the registration process.
